☐ Make-your-own-app costume

(What is an app costume? Glad you asked! Find a cardboard box that fits you. Completely cut off one side of the box. Then, cut out holes for your head and arms. (see figure 1.0) Reinforce the box with tape if needed. Be creative and decorate the box like an app, but make sure to put the logo of your app on the front. (see figure 2.0) For ideas on what an app looks like, ask your parents for permission to visit the app store on iTunes.)

Disclaimer: Please be aware that your app **will** get messy, which most likely means it will be thrown away at Kamp.

That's it from all of us here at Kids Kamp central. See you there!
